

SASA Volunteer programme

SASA planned to launch a program of providing free talk of the F&IU(SM) Regulation to manufacturing sectors starting from Oct 2008, in order to further promote the safety auditing culture from construction industries to the manufacturing industries.

SASA is going to act as organizer to contact with the manufacturing companies in Hong Kong. Participated manufacturers are required to provide venue and presentation facilities for our speaker. SASA will call for speaker, whenever manufacturer is available. Interested members are welcome to enroll for the program to provide free talk together with the presentation materials (e.g. powerpoint). Become a volunteer, please contact us via info@sasa.org.hk to discuss your topics.

Bi-monthly Social Gathering

After the successful launch of the SASA Corner for the last 2 years, SASA planned to provide a Bi-monthly Social Gathering for members, in order to maintain a profession of Safety Auditing standard amongst the members, as well as to review recent enforcement of the F&IU (Safety management) Regulation by Labour Department (LD).

In recent months, disciplinary action or written warning issued by the Labour Department to individual RSA may be heard. Either you had been interviewed or not, members of SASA who want to

update information or to share your experience must participate the gathering. SASA are willing to analyze the reported case for sharing to all the members. Whenever required, SASA may make appropriate enquiries to the LD for clarification.

Interested members are welcome to participate the 1st gathering for discussion as follows:

Date : 24th October, 2008 (Friday)

Time : 6:30 – 8:00 p.m.

Venue: 12/F, Bright Growth Medical Centre, 335 Nathan Road, Kowloon.

SHARP Program

As announced by SASA & HKRSSA, all qualified applicants (RSA) who join the SHARP PROGRAM only need to pay HK\$500 within promotion period from 1st May 2008 to 31st October 2008.

Action now to upgrade your profession as SHARP Auditor by the deadline!

New Member

In August 2008, the overall membership of the Society are tabulated as follows:

Full Member	75
Associated Member	8
Companion Member	5
