Seminar on 15 July 2004

We had great pleasure to have invited Mr. Raymond Lam, an explosive specialist with vast experience in quarrying work, to give a talk to members and non-members on the safety in handling explosives. The seminar lasted 3 hours and was free of charge to all participants. Over 70 joined and were awarded with attendance certificates confirming 3 CPD hours.

The talk was very interesting with real examples basing on years of experience of the speaker. A video was also shown during the session.
