SELECTION OF SAA

It is the wish of the Society that ASA members would give priority to SAA who are members of the Society when they select SAA as partners. SAA who are not members should be encouraged to join before they commence their task.

INTERPRETATION OF ISAS QUESTIONS

In the Annual Meeting with OSHC on 1.8.97, Auditors were quite concerned with the interpretation of the audit questions and quite a lot of queries were made. A group of Auditors who have conducted a substantial number of audits have been sitting together over weekends and evenings trying to get a concerted interpretation of the audit questions and the criteria for score.

We have included in the enclosed disk our opinion for section 1 to 10 of the ISAS for your information. Whilst they are not binding on our members nor do they represent the views of OSHC, we hope that member would try to adhere to them as much as possible. If you have a different view, you are welcome to send it to us and we shall try to accommodate it into the criteria.

These Audit criteria had been given to OSHC for their information as well.

CODE OF ETHICS

It has become necessary to consider setting a code of ethics for Auditors and we welcome members view on this. Please send your contribution to us as the Executive Council will soon be meeting to discuss this matter.

ISAS SCORE

ERROR! ERROR!

There is a minor error in the disk containing the ISAS score sheet in Excel which may generate an erroneous result. Please overwrite the previous file with the new one in the enclosed disk.
