SOMETHING EXTRA AFTER THE EGM

The EGM on 16th January is expected to be over in about 15 minutes. After the meeting, we have pleasure to have invited Mr. Fred Ho and Mr. C Y Yeung from B+B Construction Ltd. and China State Construction Engineering Corporation to share with us their views as an Auditee on the performance and approaches of various styles of safety auditors. We feel that this will be beneficial to all of us to see things from the other side.

Please therefore make an effort to turn up at the function which will be held on **Friday, 16th January 1998 at W308, Polytechnic University at 7:00 p.m.**

If you are unable to come, please do not forget to send in your proxy.
